WHAT IS JUNIOR ACHIEVEMENT?

JA Worldwide™ (Junior Achievement) is the world's largest organization dedicated to educating students in grades K-12 about entrepreneurship, work readiness, and financial literacy through experiential, hands-on programs.

Junior Achievement programs help prepare young people for the real world by showing them how to generate wealth and effectively manage it, how to create jobs which make their communities more robust, and how to apply entrepreneurial thinking to the workplace. Students put these lessons into action, and learn the value of contributing to their communities.

PURPOSE

JA Worldwide's purpose is to inspire and prepare young people to succeed in a global economy.

PROGRAM REACH

JA Worldwide reaches approximately 7.5 million students per year in 305,000 classrooms and after-school locations. JA programs are taught by volunteers in inner cities, suburbs, and rural areas throughout the United States of America and in 100 other countries around the world.

VOLUNTEERS

JA Worldwide's 245,000 classroom volunteers around the world come from all walks of life and include business people, college students, parents, and retirees. These dedicated individuals are the backbone of the organization.

PROVEN SUCCESS

JA is one of a few global non-profits to use independent, third-party evaluators to gauge the impact of its programs. Since 1993, independent evaluators have conducted studies on JA's effectiveness. Findings prove that JA has a positive impact in a number of critical areas. These results are available, for free, upon request. Summaries of the findings also are published in the JA Programs section of www.ja.org.

A BRIEF HISTORY

Junior Achievement was founded in 1919 by Theodore Vail, president of American Telephone & Telegraph; Horace Moses, president of Strathmore Paper Co.; and Senator Murray Crane of Massachusetts. Its first program, *JA Company Program*, was offered to high school students on an after-school basis. In 1975, the organization entered the classroom with the introduction of Project Business for the middle grades. Over the last 30 years, JA has expanded its activities and broadened its scope to include in-school and after-school students in grades K-12.
